AGENCY INTERNAL – DO NOT RELEASE

Hi Paul,

The NESHAP Rafie mentioned is Subpart W, Radon Emission Standards for Operating Uranium Mill Tailings. It was probably off your radar since you have no facilities like this. (b) (5) - Deliberative process privilege

I've attached the one pager we used to brief OMB, as well as the draft NPRM. Please keep these in-house, and let me know if you have any further questions. Thanks

Reid

Reid,

I missed the monthly call and in the notes it was reported by Rafie that NESHAPs was going to OMB. Could you explain this more. What actually is going to OMB and what are the rad changes. Is it something we can look at?

Thanks.
